

Real Children Real Hope

I am Travis and am 5. I came to my new home at Place of Hope several months ago. My mommy always did drugs and my daddy had already died so I had nowhere to go. It was a bad

place to be, but I was still real sad when I had to leave my mommy. I also had to leave my first foster home because I was mean a lot. My foster mom always told me I was a naughty boy and that she didn't want me anymore. Boy am I glad that happened because now I get to be with the best foster mommy and daddy ever

at Place of Hope! They always tell me what a good boy I am and I even get to live with other kids that have become just like my older brothers. Sometimes I am real scared and anxious because I think someone is going to leave and never come back. But, now, whenever I leave to go to my school, I make sure and ask them if I am coming back just to be sure. I am so happy where I am and hope it stays this way forever.

Dear Faithful Partner,

What a tremendous privilege we have together been given to care for the fatherless at such a time as this. Our nation's economic condition is certainly less than desirable.

However, hundreds of children like Travis (only five years old) are suffering in our community. Thank you for all you do to support our mission efforts, bringing hope and healing to the most vulnerable and forgotten children in our community. We value your partnership and heart for the orphans.

Blessings to You!
