Michael Wall is the founder and president of Wall Private Wealth, in addition to owning several other companies. Yet his favorite roles are as a husband and father to his four beautiful children. Wall is passionate about helping families protect, grow and reduce taxes on their wealth in any economy. This is the mission of Wall Private Wealth. One of the primary goals that Michael Wall strives to relay not only to his team, but also to each of the company's clients is the idea that individuals need to think of their life's impact beyond the acquisition of wealth. Wall has always been encouraged by the thought of "planting shade trees under which I will never sit," taken from Dennis Waitley.

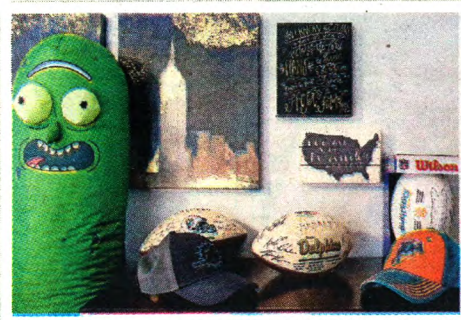

Once Michael Wall's clients have a thoughtfully-prepared financial plan, he makes a point to discuss the importance of being a good steward of the wealth they have. Wall stresses the importance of finding charities and nonprofits that operate with excellence and have a solid track record in the community. This is why Michael Wall has been honored to personally support the efforts of Place of Hope for the last several years, and why he encourages others to do so as well.

The mission of Place of Hope is to provide stable and loving family environments for children and youth who are hurting, and their families. They are committed to meeting desperate needs in our community by sharing God's love and placing hope in their lives – one child and family at a time.

The Lane Outreach Center will be an 18,000-square-foot commercial office center comprising two single-story buildings on Northlake Boulevard in Palm Beach Gardens. Half of this space will be dedicated for Place of Hope's needs and the other half will be contracted long-term to committed tenants.

Young residents at the Paxson Campus have access to the GL Homes Playground.

"I believe there are many organizations that we can support in our lives that do great work, but when it comes to work that truly impacts lives and protects innocent children, I don't believe there is an organization that does it better than Place of Hope ... truly coming alongside hurt, abandoned and abused children and offering them real, tangible hope," said Wall.

The Paxson Campus at Place of Hope provides traditional faith-based, family-style foster care. The Family Cottages are within a unique, safe and serene gated neighborhood, and they provide healthy family care, comprehensive case management, therapy, tutoring, mentoring, education, physical and spiritual development, essential life-skills training, healing and restoration. Because children in foster care often experience multiple placement disruptions while in the system, it strives to meet their critical needs by providing structure, stability, consistency and growth opportunities. While many siblings in foster care are forced to live apart, Place of

Hope strives to reunify brothers and sisters and maintain crucial family relationships.

Together, children learn core values such as love, responsibility and character. They learn about healthy relationships and seek true healing as their basic needs are met. Place of Hope is meeting desperate needs within our community and creating a blueprint for other communities.

Michael Wall has considered it a true privilege to continually support the mission of Place of Hope as his success in the financial industry has

grown. He is thankful for the opportunity to make a lasting impact in our community through the efforts of Charles Bender and his stellar team.

"Michael Wall and his support of our mission have always been critical. Today, we face a completely different set of circumstances with the COVID-19 crisis. We are so grateful for local leaders like Michael, who, no matter the circumstances, take action through generosity and advocacy, to make sure the most vulnerable in our community are not forgotten," said Bender.

'I believe there are many organizations that we can support in our lives that do great work, but when it comes to work that truly impacts lives and protects innocent children, I don't believe there is an organization that does it better than Place of Hope.'
